

Web Site ASP.net Programmer

The Company

CCS Interactive has created more than 425 web site designs and offers custom site development, hosting, custom content management programming, and web based data management.

Our culture is one of team work, enthusiasm, brainstorming, growth, mutual respect, and long term employment with a 26 year rich client history. We have an organized system of operations and focused leadership. We are seeking an additional **full-time in-house programmer** to add to our current talented and dedicated web and programming team.

CCS Interactive is the Web and Programming Division of California Computer Schools, Inc. which has successfully been in business since 1982 in Upland California and has served more than 40,000 clients in the Inland Empire and the surrounding region.

The Candidate

We are seeking a candidate who has a passion for programming, enjoys a multi-project atmosphere, is able to create custom routines for web based data applications, and enjoys a packed queue for a fast-paced company. Candidate must be focused, have pride in their programming expertise, like to work in a team environment, and be customer centered. We have an aggressive 5 year growth plan and are seeking a candidate who would consider our environment for a long-term career.

Requirements

We host using Microsoft Servers. We develop web sites using a proprietary content management system using ASP.net, ASP, SQL, and Microsoft Access. Candidate must be capable of performing or rapidly learning these programming areas.

Based In Upland, California (Inland Empire)

Position will be based in the CCS Interactive Division suite in Upland (located in California Computer School Building). Hourly or salary will be based on experience. CCS offers benefits for full-time employees including paid vacation, paid sick days, paid holidays, medical stipend, and a 401(k) plan. In addition, our Web and Programming team have an incentive program for profit sharing.
